

UNIVERSITY OF TORONTO
FACULTY OF FORESTRY

The Faculty of Forestry has been engaged in a review process that is designed to provide guidance for quality improvement and future directions. The letter from the Vice-Provost announcing the three members of the external review team is posted here. The reviewers are J. Keith Gilles (Dean, College of Natural Resources, University of California, Berkeley), Anja Geitmann (Dean and Associate Vice-Principal, Macdonald Campus, Faculty of Agricultural and Environmental Sciences, McGill University), and Lisa Sennerby Forsse (Rector/Vice-Chancellor Emeritus, Swedish University of Agricultural Sciences). The external review team will be visiting the Faculty from May 4 to 6.

Faculty, staff, students, alumni and stakeholders have been invited to participate in the process. A schedule is being developed for meetings with the external examiners on May 4 and 5. You may be contacted with a request for your input.

If you have any suggestions or questions, please contact me or Anne Koven, who is working with the Faculty to compile the Self-Study Report that is given to the external reviewers in advance of their site visit.

Professor Mohini M. Sain, PhD, *Dr.hc.* FRSC(UK), FCAE, P.Eng
Dean, Faculty of Forestry
Director, Centre for Biocomposites and Biomaterials Processing
