

JOB POSTING
Course Instructor – Fall Position 2017

FOR200H1 F – Conservation of Canada’s Forests

Course Description: This is a one-term lecture course that introduces students to forest conservation of temperate forests, with emphasis on Canadian forests and practices. It is a broad-based survey course discussing important issues in forest conservation including Canadian forestry in the world context, forest regions of Canada, forest ecology and the role of disturbances on forest development, forest certification, social aspects of forestry and human impacts on forests including silviculture, and forest management. Other related topics are urban forestry issues, sustainable forest products, bioenergy and non-timber forest products.

Course material is presented in lecture and field trip format with numerous guest lectures. Students learn general principles of forest biology and management and biomaterials sciences.

Estimate of the course enrolment: Approximately 210 undergraduate students

Estimated TA Support: Yes

Class Schedule: Lectures: Mondays 06:00PM - 8:00PM

Sessional dates of appointment: 1 September 2017 – 31 December 2017; **please note that this position includes the completion of any course work and grading not completed by 31 December 2017.**

Salary: \$7,359.07 (vacation pay included)

Qualifications: Preferably a Ph.D. degree or extensive experience in forest conservation; teaching experience an asset.

Brief description of duties: Prepare and deliver lectures, organize guest speakers, maintain course notes and readings on Blackboard, organize and lead a field trip, set and mark course assignments, which may include mid-term, essay and final examination or other assignment, with the support of TA; compile, record and submit final marks. Be available to students through regular office hours.

To apply, please submit a covering letter, curriculum vitae and names for two possible references to:
